TESFAHUN ABEBE SHIFERAW

Software Engineering Student | Web Developer

PROFESSIONAL SUMMARY

Software engineering student with a passion for creative problem-solving and building efficient, user-centric web products. Strong foundation in data structures, databases, and web architecture, backed by real published projects, including a full redesign of the Injibara University website. Eager to apply academic knowledge and practical skills in an internship or junior developer role.

EDUCATION

BSc in Software Engineering — **Feb 2023 - Jun 2028 (expected)**
Injibara University, Amhara, Ethiopia

PROJECTS

Injibara University: Official Website Redesign — **LIVE**
Modern redesign of the university site with multi-level navigation, hero slider, leadership profiles, news, student services (SIMS, E-SHE, ICT, E-Learning), and a fully responsive layout. **HTML, CSS, JavaScript**
abelgit33.github.io/injibara-university

Buna Bete — **LIVE**
Responsive React single-page app with a dark, modern interface, built to practise component design and frontend engineering. **React, JavaScript, CSS**
abelgit33.github.io/BunaBete

In progress: Ethiopian music gallery website, e-commerce website, and a Telegram bot.
